Congratulations! You have your Concealed Handgun License or a License to Carry, Now what?

We offer multiple Training Courses which teach you to become proficient, safe, and accurate with your new weapon and your authority to carry it across the Nation. As a former Tier One tactical operator Greg Shaffer, founder of Shaffer Security Group, has attended the finest tactical firearms courses in the nation and is a highly certified and sought after tactical instructor. Greg has taught tactical firearms to Counter Terrorism and SWAT teams across the globe, to include Hungary; Saudi Arabia; Philippines; Iraq; Kuwait; Singapore; as well as the USMC; USCG; and numerous FBI & Police SWAT teams. He now is offering those amazing training skills to you!

“Self Defense with a gun is a fight for survival. The stakes are literally, life & death. No one really wins a gunfight. The best you can do – the very best you can hope to achieve – is to keep what you have: your life, your well-being and the lives and well-being of those you love safe.”

**** Please note it is NOT a requirement to have a gun license to take any of these courses ****

Course One : MORE THAN THE BASICS.

BASIC TACTICAL FIREARMS SKILLS : In addition to teaching you basic tactical firearms skills, we advise you & provide you samples of the various carrying bags, purses, holsters & more. We teach you how to carry your weapon, the Pros & Cons and help you determine the best way for your lifestyle.

In “More Than the Basics”, we teach you how to choose the right ammunition for your weapon. The single greatest misconception for shooters is all ammunition is the same. You will be educated on what ammunition you should use and why as well as how ammunition differs.

In this first course, we teach you what we call “Situational Awareness” and the “Mental Attitude Necessary to Pull the Trigger”. We help you understand the physical & psychological state of your attacker. We talk about ‘Rationalization’ by the Victim. These skills are crucial to your success in protecting yourself and being prepared.

Finally, we teach you “How to Survive an Armed Encounter” by utilizing ‘Simunition’ weapons & non-lethal ammunition in the comfort of your home, office, conference room or our temperature controlled warehouse. You get to practice how to respond correctly and safely, with an instructor walking you through each step, all in a realistic scenario setting.

Course Two: TACTICAL HANDGUN SHOOTING

INTERMEDIATE TACTICAL FIREARMS SKILLS: This course will improve upon your tactical firearms skills both with ‘live-fire’ on the pistol range, and with additional ‘Simunition’ work. These skills will put you at an advantage over any armed person attempting to hurt you or your loved ones. You will learn to shoot quickly and accurately from various positions. You will learn to shoot multiple targets (attackers), with multiple rounds, with Speed & Accuracy.

This course also provides you training in Weapon Retention & Weapon Take-Away techniques and introduces you to multiple targets in varying situations.

Course Three: SCENARIO BASED TRAINING

AS REAL AS IT GETS: We create simulated High Stress Situations where you actually shoot (using Simunition) the assailant. We incorporate scenarios based on actual deadly assaults and let you see them develop and respond as necessary. Consolidated Training Group (CTG) was the first company in the U.S. to receive ‘Simunition’ training authorization for civilians. This is the most realistic training you will ever have.

We also offer private individual or small group shooting lessons to help you get more familiar with your weapon and improve your skills. Please call us for more information: (469)279-2696; or Email: gregory.w.shaffer@gmail.com
